

Doom PWAD QA Report

Run 0a3ba8f2-4abe-41cd-963e-2bbf055dd10e | Map E1M1 | Outcome timeout

Executive Summary

This is an autonomous QA test of map E1M1 using an LLM agent designed to validate navigation, combat readiness, and resource distribution. The test concluded with a 'timeout' outcome after 16 seconds, failing to achieve map completion due to critical resource allocation errors.

Pass/fail:

map_navigation: FAIL

combat_engagement: FAIL

resource_balance: FAIL

secret_coverage: PASS

overall_verdict: FAIL

navigation_rationale: The run ended in a timeout and the agent did not reach the map exit.

combat_rationale: The agent achieved zero kills despite the presence of 8 enemies.

resource_rationale: The ammo_ratio is 0.00 and a critical resource balance defect was identified.

secret_rationale: The map has no secret sectors (secret_sector_count == 0).

No technical problems encountered during this test run.

Test Item And Environment

The test evaluated E1M1, a small map featuring 8 enemies (Imps, Zombiemen, and Shotgun Guys), 5 sectors, and 35 linedefs. Despite the presence of combatants, the map contains no weapon pickups and no health pickups, presenting a high difficulty spike. The map layout is compact at 2528x1056 units.

The test was conducted using the ViZDoom engine and the gemini-3.1-flash-lite model, mediated via the MCP tool interface. The run was configured with a max_ticks cap of 150 at difficulty level 5.

Metric	Value	Metric	Value
Status	completed	Duration	16
Actions	1	LLM calls	1
Final HP	100	Kills	0
Position samples	39	Movement units	1898.3
Recording	/media/steven/MaD/matznysh-hna/Agentic-PWAD-QA-Doom/Backend/storage/recordings/0a3ba8f2-4abe-41cd-963e-2bbf055dd10e.mp4		

Static Analysis Context

Things	Enemies	Items	Keys	Secrets	Linedefs	Sectors
10	8	1	0	0	35	5

Estimated difficulty: hard. Health ratio: 0.0000. Ammo ratio: 0.0000.

Coverage Evaluation

The agent achieved minimal exploration, remaining near the starting coordinates. Because the agent was immediately halted by the resource deficit, the map was not meaningfully tested. Coverage is insufficient for a valid QA release assessment.

Objectives Covered

- :

Objectives Omitted

- :
- :
- :
- :

Uncovered attributes: The agent was unable to test any map-specific scripting, sector triggers, or geometry beyond the starting position.

Defects And Risks

A total of one defect was detected, categorized as Severity 2 (Major/Critical impact). The primary issue is a complete lack of starting ammunition, preventing any combat engagement.

Patterns: Insufficient defects to identify patterns.

Severity	Priority	Type	Tick	Description
2	2	agent_observed	0	Agent-observed issue [RESOURCE BALANCE] At tick 0, position (-32, -224): Player starts with 0 bullets and 0 shells, leaving no way to engage initial enemies effectively. Player impact: progression impossible as starting weapons are useless. Severity: critical.

Risk Areas

- **Starting Position (-32, -224):** high

Activity Log Summary

1) Static analysis phase (Pre-run), 2) Map exploration phase (Tick 0), 3) Defect detection phase (Concurrent). Gameplay duration was limited to the initial spawn point.

Exploration was halted immediately upon identifying that the agent's state was insufficient for the mission objectives.

No non-normal gameplay events were recorded.

Limitations And Recommendations

The agent was unable to test any part of the map beyond the start point due to the identified resource starvation.

Good Quality Areas

- **N/A:**
