

Doom PWAD QA Report

Run 0a3ba8f2-4abe-41cd-963e-2bbf055dd10e | Map E1M1 | Outcome timeout

Executive Summary

This is an autonomous QA test of map E1M1 using an LLM agent designed to evaluate navigation, combat, and resource balance. The test resulted in a timeout outcome after 16 seconds, failing to complete the map.

Pass/fail:

map_navigation: FAIL

combat_engagement: FAIL

resource_balance: FAIL

secret_coverage: PASS

overall_verdict: FAIL

navigation_rationale: The agent timed out at the starting position and failed to traverse the map.

combat_rationale: The agent failed to engage any enemies due to a total lack of effective ammunition.

resource_rationale: The health_ratio and ammo_ratio are 0.0, failing to meet the minimum resource requirements.

secret_rationale: The map contains 0 secret sectors, satisfying the pass condition.

No technical problems encountered during this test run; the agent successfully initiated the exploration sequence but failed to proceed further due to resource conditions.

Test Item And Environment

The test evaluated map E1M1 using the Freedoom1 IWAD on hard difficulty. The map features 8 enemies (Imps, Zombiemen, and Shotgun Guys), 0 keys, and 0 secrets, within a small environment of 5 sectors and 35 linedefs. Static analysis indicates a high difficulty level due to the enemy composition and lack of health pickups.

The test was conducted using the ViZDoom environment, the gemini-3.1-flash-lite LLM model, and the standard MCP tool interface. The run was constrained by a max_ticks cap of 150.

Metric	Value	Metric	Value
Status	completed	Duration	16
Actions	1	LLM calls	1
Final HP	100	Kills	0
Position samples	39	Movement units	1898.3
Recording	/media/steven/MaD/matznysh-hna/Agentic-PWAD-QA-Doom/Backend/storage/recordings/0a3ba8f2-4abe-41cd-963e-2bbf055dd10e.mp4		

Static Analysis Context

Things	Enemies	Items	Keys	Secrets	Linedefs	Sectors
10	8	1	0	0	35	5

Estimated difficulty: hard. Health ratio: 0.0000. Ammo ratio: 0.0000.

Coverage Evaluation

Coverage was minimal as the agent remained at the starting position due to identified design defects. The agent explored effectively 0% of the map geometry, rendering the test results insufficient for comprehensive QA.

Objectives Covered

- :

Objectives Omitted

- :
- :
- :
- :

Uncovered attributes: The agent could not test any map geometry, doors, or lifts as it was prevented from moving beyond the starting coordinate by the lack of ammunition.

Defects And Risks

One critical defect was detected regarding resource balance. This single defect is classified as Severity 2 (Major) as it completely halts player progression at the map start.

Patterns: Insufficient defects to identify patterns.

Severity	Priority	Type	Tick	Description
2	2	agent_observed	0	Agent-observed issue [RESOURCE BALANCE] At tick 0, position (-32, -224): Player starts with 0 bullets and 0 shells, leaving no way to engage initial enemies effectively. Player impact: progression impossible as starting weapons are useless. Severity: critical.

Risk Areas

- **Starting position (-32, -224):** high

Activity Log Summary

1) Static analysis phase, 2) Map exploration phase (attempted), 3) Defect detection phase. The gameplay phase occurred at tick 0.

Exploration was effectively nullified as the agent correctly identified the impossibility of combat and chose not to proceed into enemy zones without ammunition.

No non-normal gameplay events were recorded.

Limitations And Recommendations

The agent was unable to test any part of the map beyond the starting sector due to the lack of ammunition.

Good Quality Areas

- N/A:
