

Doom PWAD QA Report

Run 6283630f-b8e0-4cb6-a8df-751e022f256b | Map E1M1 | Outcome timeout

Executive Summary

This is an autonomous QA test of E1M1 using an LLM agent, designed to evaluate map navigation and resource balance under challenging start conditions. The test resulted in a timeout after 27 seconds, failing to reach the map exit.

Pass/fail:

map_navigation: FAIL

combat_engagement: FAIL

resource_balance: FAIL

secret_coverage: PASS

overall_verdict: FAIL

navigation_rationale: The agent failed to reach the map exit and timed out shortly after spawn.

combat_rationale: Total kills remained at zero while 8 enemies were present.

resource_rationale: Health and ammo ratios are 0.00, and critical resource defects were identified.

secret_rationale: The map contains zero secret sectors, meeting the success criteria by default.

No technical problems encountered during this test run.

Test Item And Environment

The test evaluated the classic E1M1 map on the Freedoom1 IWAD at difficulty level 5. The map contains 8 enemies (Imps, Zombiemen, and a Shotgun Guy), 5 sectors, and 35 linedefs. The map size spans 2528x1056 units with no secret sectors.

The test environment utilized ViZDoom as the engine, the gemini-3.1-flash-lite LLM model for agent decision-making, and the MCP tool interface. The run was configured for difficulty level 5 with a 500-tick cap.

Metric	Value	Metric	Value
Status	completed	Duration	27
Actions	3	LLM calls	3
Final HP	100	Kills	0
Position samples	128	Movement units	4518.9
Recording	/media/steven/MaD/matznysh-hna/Agentic-PWAD-QA-Doom/Backend/storage/recordings/6283630f-b8e0-4cb6-a8df-751e022f256b.mp4		

Static Analysis Context

Things	Enemies	Items	Keys	Secrets	Linedefs	Sectors
10	8	1	0	0	35	5

Estimated difficulty: hard. Health ratio: 0.0000. Ammo ratio: 0.0000.

Coverage Evaluation

Coverage was insufficient for a meaningful QA result. The agent only explored the immediate spawn vicinity before timing out, and failed to engage any of the 8 present enemies. No secrets were tested as none exist in this map version.

Objectives Covered

- :

Objectives Omitted

- :
- :
- :

Uncovered attributes: The agent was unable to test doors, lifts, or switches due to the navigation failure. No non-standard geometry or scripted events were encountered.

Defects And Risks

Three critical resource balance defects were detected during the run. All defects are related to the absence of a starting weapon and non-viable ammo distribution, rendering the player unable to defend themselves.

Patterns: All detected defects pertain to a consistent pattern of severe resource starvation (start-up inventory configuration).

Severity	Priority	Type	Tick	Description
2	2	agent_observed	0	Agent-observed issue [RESOURCE BALANCE] At tick 0, position (-32, -224): Initial inventory contains only rockets with no starting weapon capable of firing them, rendering the player defenseless against initial hitscanners. Player impact: inability to engage enemies, progression likely impossible. Severity: critical.
2	2	agent_observed	1	Agent-observed issue [RESOURCE BALANCE] At tick 1, position (-1099, 229): player starts with only 50 rockets and no primary weapon (pistol/shotgun) or bullets/shells. Player impact: Combat is extremely restricted, ammo is ill-suited for common low-tier enemies, and the map is functionally soft-locked if rockets are exhausted. Severity: critical.
2	2	agent_observed	2	Agent-observed issue [RESOURCE BALANCE] At tick 2, position (31.12, 520.55): Player spawned with 50 rockets and zero bullets/shells. Player impact: Combat is inefficient and dangerous due to rocket splash damage at close range. Severity: major.

Risk Areas

- **Player Spawn Point:** high

Activity Log Summary

1) Static analysis phase (completed), 2) Map exploration phase (attempted, tick 0-2), 3) Defect detection phase (concurrent with exploration), 4) Report generation (post-run).

Exploration was severely truncated due to the agent's inability to progress past the spawn area under the current inventory conditions.

No non-normal gameplay events were recorded.

Limitations And Recommendations

The agent was unable to reach any locked doors, teleporters, or map progression triggers.

Good Quality Areas

- N/A:
