

Doom PWAD QA Report

Run 924ed4ad-b779-4df0-9a35-189b20c3b190 | Map MAP01 | Outcome stuck

Executive Summary

Document the automated PWAD QA run, combine static map analysis with live play telemetry, and give map authors concrete evidence about completion, traversal, combat, and defects. The selected-difficulty gameplay evidence uses 12 spawned enemy/enemies.

Pass/fail: map_navigation: FAIL combat_engagement: FAIL resource_balance: FAIL secret_coverage: FAIL
overall_verdict: FAIL

- The run ended with outcome 'stuck' after visiting 8 coarse position cluster(s).
- 1 kill(s) recorded against 12 enemy/enemies that spawn at difficulty 1.
- Selected-difficulty health_ratio=0.0000, ammo_ratio=0.0833.
- 0 secret(s) found.

The highest-severity open finding is 'Run stalled after repeated stuck decisions' at severity 1. Review this before publishing the map.

Test Item And Environment

Test item: MAP01 from WAD b8a466fd-b557-44cd-a08e-a97206f6f2c0. Static analysis context: 108 things, 12 enemies, 12 items, 0 keys, 4 secret sectors, 208 linedefs, 30 sectors, estimated difficulty hard. At difficulty 1, 12 of 12 raw enemies spawn.

The run used IWAD freedoom2, difficulty 1, model gemini-3.1-flash-lite, and a maximum budget of 900 game ticks.

Metric	Value	Metric	Value
Status	completed	Duration	54
Actions	34	LLM calls	34
Final HP	58	Kills	1
Position samples	560	Movement units	2795.3
Recording	/media/steven/MaD/matznysh-hna/Agentic-PWAD-QA-Doom/Backend/storage/recordings/924ed4ad-b779-4df0-9a35-189b20c3b190.mp4		

Recording And Agent Quality

Recording	Value	Agent progress	Value
Status	ok	Progress score	32
Frames	594 total / 472 unique	Meaningful progress	8
Video shape	640 x 480 @ 15.0 FPS	Completed objects	3
Gameplay time	14.914s, 522 tic(s)	Quality flags	warning

Quality warnings: Combat against target 28 stopped with out_of_ammo.

- The requested action repeats a recent no-progress signature (take_action), so I am switching tactics.
- The requested action repeats a recent no-progress signature (take_action), so I am switching tactics.
- The requested action repeats a recent no-progress signature (take_action), so I am switching tactics.
- The requested action repeats a recent no-progress signature (explore), so I am switching tactics.

Static Analysis Context

Metric	Raw WAD	Difficulty 1	Notes
Enemies	12	12	0 hidden by skill/multiplayer flags
Items	12	12	0 hidden by skill/multiplayer flags
Secrets	4	4	Sector special 9
Geometry	208 linedefs	30 sectors	3840 x 3840 units

Selected-difficulty estimate: hard. Health ratio: 0.0. Ammo ratio: 0.0833.

Coverage Evaluation

The automated playthrough recorded 34 gameplay event(s), 34 lockstep LLM/MCP decision(s), 560 movement samples, 8 position cluster(s), and 2795.3 map units of movement. The run ended with outcome 'stuck'. Combat coverage is evaluated against 12 enemy/enemies that spawn at difficulty 1, not against hidden raw THINGS. Recording quality status: ok; 594 frames, 472 unique frames, 39.6 seconds at 15.0 FPS. Automated playthrough progress score: 32 with 8 meaningful progress event(s). Quality flags: warning.

Objectives Covered

- **Map launch and initial state capture:** Run status: completed.
- **Director decision logging:** 34 decision event(s) recorded.
- **Movement telemetry:** 560 position sample(s) across 8 cluster(s).
- **Gameplay recording:** /media/steven/MaD/matznysh-hna/Agentic-PWAD-QA-Doom/Backend/storage/recordings/924ed4ad-b779-4df0-9a35-189b20c3b190.mp4

Objectives Omitted

- **Verified map exit:** Run outcome was stuck.

Uncovered attributes: exit reliability, secret accessibility

Defects And Risks

2 defect(s) were detected. Primary risk: at least one detected defect needs author review.

Patterns: softlock_navigation: 1; unreachable_secret: 1

Severity	Priority	Type	Tick	Description
1	1	softlock_navigation	229	Run stalled after repeated stuck decisions The run produced repeated stuck events with no meaningful progress. This usually indicates blocked navigation, unreachable objectives, or an automated control loop that should be reviewed with the recording and action trace.
3	3	unreachable_secret	536	Secrets not reached Static analysis found secret sectors, but the automated playthrough did not enter one.

Risk Areas

- **Progression:** Map exit was not verified; outcome was stuck.
- **softlock_navigation:** Run stalled after repeated stuck decisions
- **unreachable_secret:** Secrets not reached

Activity Log Summary

The pipeline statically analyzed the map, launched a ViZDoom MCP session, executed 34 lockstep MCP action(s), collected event and position telemetry, finalized recording artifacts, detected defects, and generated this report.

Run data is sparse or quality flags are present; treat gameplay conclusions as preliminary.

Limitations And Recommendations

Automated play can miss secrets or optional combat paths that require map-specific intent. Single-run results should be confirmed with additional seeds or manual review before release decisions.

Good Quality Areas

- **Runtime stability:** The backend completed the run lifecycle.
- **Telemetry:** The run includes multiple position samples.
- **Evidence capture:** A gameplay recording artifact was produced.
- **Static context:** The report includes parsed map structure and thing counts.

Evidence Appendix

Notable Event Trace

Tick	Event	Position	HP	MCP Action	Stop reason
126	damage_taken	-1184.6, 416.4	99	move_to	arrived
229	stuck	-1202.7, -163.6	99	take_action	tics_complete
232	stuck	-1229.1, -169.7	99	take_action	tics_complete
235	stuck	-1242.2, -171.7	99	take_action	tics_complete

LLM/MCP Decision Trace

#0 ticks 14 -> 60 tool aim_and_shoot stop shots_complete Gemini API key is not configured; using deterministic fallback. Visible DoomImp selected for combat.
#1 ticks 61 -> 100 tool aim_and_shoot stop target_not_visible Gemini API key is not configured; using deterministic fallback. Visible DoomImp selected for combat.
#2 ticks 101 -> 126 tool move_to stop arrived Gemini API key is not configured; using deterministic fallback. Visible CellPack selected for collection.

#3 | ticks 127 -> 149 | tool move_to | stop arrived

Gemini API key is not configured; using deterministic fallback. Visible Chainsaw selected for collection.

#4 | ticks 150 -> 189 | tool move_to | stop pickup_not_collected

Gemini API key is not configured; using deterministic fallback. Visible Chainsaw selected for collection.

#5 | ticks 190 -> 210 | tool move_to | stop arrived

Gemini API key is not configured; using deterministic fallback. Visible RocketBox selected for collection.

#6 | ticks 211 -> 217 | tool explore | stop enemy_spotted

Gemini API key is not configured; using deterministic fallback. No visible combat or pickup target is available, so a short bounded exploration step starts.

#7 | ticks 218 -> 219 | tool aim_and_shoot | stop out_of_ammo

Gemini API key is not configured; using deterministic fallback. Visible DoomImp selected for combat.

#8 | ticks 220 -> 221 | tool take_action | stop tics_complete

Gemini API key is not configured; using deterministic fallback. Recent combat ran out of ammo, so switching weapons before reassessing.

#9 | ticks 222 -> 223 | tool take_action | stop tics_complete

Gemini API key is not configured; using deterministic fallback. Recent combat ran out of ammo, so switching weapons before reassessing.

#10 | ticks 224 -> 225 | tool take_action | stop tics_complete

Gemini API key is not configured; using deterministic fallback. Recent combat ran out of ammo, so switching weapons before reassessing.

#11 | ticks 226 -> 227 | tool take_action | stop tics_complete

Gemini API key is not configured; using deterministic fallback. Recent combat ran out of ammo, so switching weapons before reassessing.

#12 | ticks 228 -> 229 | tool take_action | stop tics_complete

Progress has not changed across repeated lockstep decisions, so I am forcing a bounded QA recovery probe. I am facing a fresh unexplored direction first, then I will move in short bounded steps.

#13 | ticks 230 -> 232 | tool take_action | stop tics_complete

The requested action repeats a recent no-progress signature (take_action), so I am switching tactics. I am advancing straight under direct control instead of letting explore arc in place.

#14 | ticks 233 -> 235 | tool take_action | stop tics_complete

The requested action repeats a recent no-progress signature (take_action), so I am switching tactics. I am probing for a switch or door interaction before declaring the area blocked.

#15 | ticks 236 -> 263 | tool retreat | stop complete

The requested action repeats a recent no-progress signature (take_action), so I am switching tactics. The direct probes did not progress yet, so I am retreating and rotating out of the loop.

#16 | ticks 264 -> 308 | tool aim_and_shoot | stop shots_complete

Gemini API key is not configured; using deterministic fallback. Visible DoomImp selected for combat.

#17 | ticks 309 -> 368 | tool aim_and_shoot | stop shots_complete

Gemini API key is not configured; using deterministic fallback. Visible DoomImp selected for combat.

#18 | ticks 369 -> 370 | tool move_to | stop enemy_nearby

Gemini API key is not configured; using deterministic fallback. Visible Chainsaw selected for collection.

#19 | ticks 371 -> 417 | tool aim_and_shoot | stop target_not_visible

Gemini API key is not configured; using deterministic fallback. Visible DoomImp selected for combat.

#20 | ticks 418 -> 468 | tool aim_and_shoot | stop shots_complete

Gemini API key is not configured; using deterministic fallback. Visible DoomImp selected for combat.

#21 | ticks 469 -> 470 | tool explore | stop enemy_spotted

Target 32 was recently rejected as not visible, so I am exploring instead of firing through geometry.

#22 | ticks 471 -> 472 | tool explore | stop enemy_spotted

Target 32 was recently rejected as not visible, so I am exploring instead of firing through geometry.

#23 | ticks 473 -> 474 | tool explore | stop enemy_spotted

The previous recovery did not create measurable progress, so I am exploring from the new angle with enemy and item stops enabled.

#24 | ticks 475 -> 476 | tool explore | stop enemy_spotted

Target 32 was recently rejected as not visible, so I am exploring instead of firing through geometry.

#25 | ticks 477 -> 478 | tool explore | stop enemy_spotted

Target 32 was recently rejected as not visible, so I am exploring instead of firing through geometry.

#26 | ticks 479 -> 480 | tool explore | stop enemy_spotted

Target 32 was recently rejected as not visible, so I am exploring instead of firing through geometry.

#27 | ticks 481 -> 482 | tool explore | stop enemy_spotted

Target 32 was recently rejected as not visible, so I am exploring instead of firing through geometry.

#28 | ticks 483 -> 484 | tool take_action | stop tics_complete

Progress has not changed across repeated lockstep decisions, so I am forcing a bounded QA recovery probe. I am facing a fresh unexplored direction first, then I will move in short bounded steps.

#29 | ticks 485 -> 528 | tool aim_and_shoot | stop shots_complete

Gemini API key is not configured; using deterministic fallback. Visible DoomImp selected for combat.

#30 | ticks 529 -> 530 | tool explore | stop enemy_spotted

Target 32 was recently rejected as not visible, so I am exploring instead of firing through geometry.

#31 | ticks 531 -> 532 | tool explore | stop enemy_spotted

Target 32 was recently rejected as not visible, so I am exploring instead of firing through geometry.

#32 | ticks 533 -> 534 | tool explore | stop enemy_spotted

Target 32 was recently rejected as not visible, so I am exploring instead of firing through geometry.

#33 | ticks 535 -> 536 | tool move_to | stop enemy_nearby

The requested action repeats a recent no-progress signature (explore), so I am switching tactics. I am switching to available pickup Chainsaw first.
