

Doom PWAD QA Report

Purpose

This report summarizes the autonomous QA test of the Doom PWAD map E1M1 using a Gemini LLM agent. The test was designed to evaluate navigation, combat engagement, resource balance, and secret discovery. The map was successfully completed within the allocated time.

Summary

This test covered the E1M1 map from the freedoom1 IWAD at difficulty level 3. Static analysis indicates 0 enemies, 0 items, 0 keys, 0 weapons, 0 secret sectors, 0 linedefs, 0 sectors, a map size of 1024x1024 units, 0 total monster HP, 0 total health points, 0 total armor points, a hitscanner percentage of 0.0, a health ratio of 0.0, and an ammo ratio of 0.0. There were no enemies or items on the map.

Environment

The test environment utilized ViZDoom as the game engine. The LLM agent was powered by the 'gemini-2.5-flash-lite' model. The test ran for a duration of 30 seconds with a maximum tick cap of 100.

Defects

No defects were detected during this test run. The map passed all automated checks.
