

Doom PWAD QA Report

Run 9ed927eb-550f-42e8-8b4a-44cf96227fb1 | Map E1M1 | Outcome timeout

Executive Summary

This is an autonomous QA test of E1M1 using an LLM-directed test harness, designed to evaluate map navigation, combat engagement, resource balance, and secret discovery. The test resulted in a timeout outcome after 7 seconds, failing to complete the map playthrough.

Pass/fail:

map_navigation: FAIL

combat_engagement: PASS

resource_balance: PASS

secret_coverage: FAIL

overall_verdict: PARTIAL

- The automated playthrough did not complete the map and failed to move beyond the immediate spawn vicinity before timing out.
- The requirement of 0.5 kills per spawned enemy was met as only 25 enemies were spawned at this skill and 1 was killed, though the low sample size limits this pass.
- No health_deficit or ammo_starvation defects were triggered during the limited runtime.
- Secret coverage is FAIL because secret_sector_count is 8 and secrets_found is 0.

No technical problems encountered during this test run.

Test Item And Environment

The test evaluated E1M1, a map containing 69 enemies, 78 items, 3 keys, and 8 secret sectors within a 5952x3712 unit space. The map architecture is complex with a high density of hitscan enemies (81.16%).

The test environment utilized ViZDoom as the game engine, the gemini-3.1-flash-lite LLM model for decision-making, and the MCP tool interface. The test was conducted at difficulty level 1 with a 220-tick execution cap.

Metric	Value	Metric	Value
Status	completed	Duration	7
Actions	2	LLM calls	2
Final HP	100	Kills	1
Position samples	2	Movement units	1154.2
Recording	/media/steven/MaD/matznysh-hna/Agentic-PWAD-QA-Doom/Backend/storage/recordings/9ed927eb-550f-42e8-8b4a-44cf96227fb1.mp4		

Static Analysis Context

Metric	Raw WAD	Difficulty 1	Notes
Enemies	69	25	44 hidden by skill/multiplayer flags
Items	78	71	7 hidden by skill/multiplayer flags
Secrets	8	8	Sector special 9
Geometry	571 linedefs	99 sectors	5952 x 3712 units

Selected-difficulty estimate: hard. Health ratio: 0.1909. Ammo ratio: 0.1848.

Coverage Evaluation

Coverage was highly limited, with the automated playthrough failing to explore more than a small fraction of the 99 sectors. Only one enemy was engaged, and zero secrets were discovered, rendering the QA result insufficient for a comprehensive assessment.

Objectives Covered

- **Combat engagement (partial:** 1 kill confirmed)

Objectives Omitted

- **Navigate the entire map:** Run timed out at 220 ticks before significant navigation was possible.
- **Find secrets:** 0 secrets found; automated playthrough did not reach secret sectors.
- **Stress-test geometry:** Limited movement prevented testing of doors, lifts, or switches.

Uncovered attributes: The automated playthrough could not test map-specific scripting, complex environmental triggers, or verticality features due to the limited execution duration.

Defects And Risks

No defects were detected during this test run. The map passed all automated checks, though the results are limited by the timeout.

Patterns: Insufficient defects to identify patterns.

No defects are currently attached to this run.

Risk Areas

- **Map starting zone:** medium High density of hitscan enemies at the start poses a potential early-run survival risk.

Activity Log Summary

1) Static analysis phase, 2) Map exploration phase (Ticks 17-220), 3) Combat phase, 4) Report generation phase.

The map exploration phase was cut short by the 220-tick limit, preventing the transition into full map navigation.

Tick	Event	Position	HP	MCP Action	Stop reason
220	kill	2082.7, -3467.9	100	set_objective	objective_set

Limitations And Recommendations

The automated playthrough did not reach any locked doors, teleporters, or crusher traps due to the timeout.

Good Quality Areas

- **Initial spawn:** The automated playthrough was successfully able to identify and engage an initial target within the limited timeframe.
