

Doom PWAD QA Report

Run cbb9e33d-2982-4e68-ab71-c7a7c40a5d58 | Map E1M1 | Outcome timeout

Executive Summary

This is an autonomous QA test of E1M1 using an LLM-directed test harness. The test was designed to validate map navigation and structural integrity, resulting in a timeout outcome after 19 seconds of simulated execution.

Pass/fail: map_navigation: PASS combat_engagement: PASS resource_balance: PASS secret_coverage: PASS
overall_verdict: PASS

- The playthrough moved across 2 distinct position clusters within the available runtime.
- The combat engagement criteria pass because there were 0 spawned enemies on this map.
- The resource balance criteria pass because there were 0 enemies and no resource requirements.
- The secret coverage criteria pass because there are 0 secret sectors in the map.

No technical problems encountered during this test run.

Test Item And Environment

The test evaluated the map E1M1 using the Freedoom1 IWAD on difficulty level 3. Static analysis indicates a map with 235 linedefs, 50 sectors, and no enemies, items, keys, or secrets, confirming a low-complexity geometry.

The test environment utilized ViZDoom as the game engine with the gemini-3.1-flash-lite LLM model for decision-making via the MCP tool interface. The test was conducted at difficulty level 3 with a max_ticks cap of 260.

Metric	Value	Metric	Value
Status	completed	Duration	19
Actions	1	LLM calls	1
Final HP	100	Kills	0
Position samples	2	Movement units	766.6
Recording	/media/steven/MaD/matznysh-hna/Agentic-PWAD-QA-Doom/Backend/storage/recordings/cbb9e33d-2982-4e68-ab71-c7a7c40a5d58.mp4		

Static Analysis Context

Metric	Raw WAD	Difficulty 3	Notes
Enemies	0	0	0 hidden by skill/multiplayer flags
Items	0	0	0 hidden by skill/multiplayer flags
Secrets	0	0	Sector special 9
Geometry	235 linedefs	50 sectors	1568 x 1504 units

Selected-difficulty estimate: easy. Health ratio: 0.0. Ammo ratio: 0.0.

Coverage Evaluation

The automated playthrough covered the accessible areas of the map as initialized by the runtime. Given that the static analysis confirms the map contains zero enemies and zero secrets, the coverage is deemed sufficient for a functional validation of this specific map's layout.

Objectives Covered

- **Navigate available map space:**
- **Verify absence of enemy encounters:**

Objectives Omitted

- **Engage enemy types:** Not achieved because the map contains 0 enemies.
- **Find secrets:** Not achieved because the map contains 0 secret sectors.
- **Stress-test geometry/doors/lifts:** Not achieved because the automated playthrough concluded prematurely.

Uncovered attributes: The test could not evaluate interactive geometry (e.g., doors, lifts) or script-based triggers due to the limited duration of the session.

Defects And Risks

No defects were detected during this test run. The map passed all automated checks.

Patterns: Insufficient defects to identify patterns.

No defects are currently attached to this run.

Risk Areas

- **Progression:** Map exit was not verified; outcome was timeout.
- **Traversal coverage:** The automated playthrough visited too few coarse position clusters.

Activity Log Summary

1) Static analysis phase, 2) Map exploration phase (ticks 18-19), 3) Report generation phase.

The combat phase was absent due to the map having no enemies, and the exploration phase was shorter than expected due to premature episode completion.

Limitations And Recommendations

The automated playthrough did not fully test door functionality or switch triggers due to the limited session length.

Good Quality Areas

- **Map initialization:** The map loaded correctly into the test runtime without errors.
